

## OUR MISSION

*To help our clients establish and conduct a quality sleep disorders testing program at the lowest possible cost.*

**SLEEP DISORDERS  
TESTING**

## ABOUT US

Mays & Associates, a Tennessee Corporation since 1979, specializes in assisting healthcare facilities use existing resources to establish programs for the diagnosis and treatment of sleep disorders. We bring all aspects of sleep disorders management including our proprietary data collection and processing hardware and software, capable of both Polysomnography (PSG) and Electroencephalography (EEG); provided to our clients free of charge. Our services include free screening to identify candidates for sleep testing, attended PSG, Home Sleep Testing (HST), and long-term electronic compliance monitoring to optimize treatment outcomes. For those facilities already operating sleep testing programs, we offer PSG scoring and interpretation and other selected support services using client owned hardware and software.

## BENEFITS

### LOW COST

- The underlying theme for the business model is to create a turnkey operation at a very low cost – *everybody wins*

### NO STARTUP COSTS

- Use a standard patient room
- No capital equipment cost
- Training and technical support provided at no cost
